

CHALET VISTA

LAMINATE

Enhanced fashion meets classic, rustic hardwood in Mohawk's smashing new color additions to the naturally weathered Chalet Vista Collection. Joining the selection of incredibly realistic-looking oaks and maple are two brand new gorgeous styles—White Weathered Pine and Beachwood Cream Oak—that are guaranteed to turn heads. Featuring the popular, wider 7½" width, microbevel edges and ends as well as textured surfaces traditionally found on high-end hardwood, this successful 8mm laminate collection now offers even more design options for crafting amazing rooms. Chalet Vista planks are low gloss and offer a variety of multiwidth design, textures and character for upscale style at a tremendous value.

MOHAWK®

KEY SELLING POINTS BY CUSTOMER

FOR RETAILERS

Chalet Vista offers your customers the choice of fashionable, yet classic designs in an array of species and colors to meet an aesthetic need. The durability of this product provides maximum protection for laminate floors and is backed by a limited lifetime warranty. The performance and value found in the Chalet Vista collection makes this a premium choice for customers looking for realistic wood visuals.

FOR INSTALLERS

Chalet Vista brings installers a total of 2 additional wood styles for creating great looking floors. Uniclic locking system guarantees a perfect, quick, and easy installation every time, ready for immediate use in areas where real wood cannot be installed.

FOR HOMEOWNERS

Homeowners want long lasting durability and they will find it in Chalet Vista. The collection offers rustic and naturally weathered wood visuals found in higher priced floors. The variety of colors and visuals offer great design for an even better value.
