

MAGNOLIA BEND

GLAZED PORCELAIN TILE

As the demand for large format tiles continues to increase, Mohawk's Magnolia Bend pressed porcelain tile collection delivers incredible realism and fashion-forward details.

Mohawk's state-of-the-art Reveal Imaging™ technology delivers the extremely popular wood-look visuals in five beautiful color options: Oceanside Cottage, Chesapeake Grey, Hatteras Cedar, Natural Driftwood and Ozark Brown. Capitalizing on the trend of longer, wider plank visuals, the large format 6"x36" tile size helps emulate a wood floor perfectly with the durability and easy maintenance of tile. Each tile features V4 shade variation, creating a beautiful range within each color and dazzling finished floors. Magnolia Bend answers customers design needs with gorgeous wood-look selections that are versatile enough to perform in areas not well-suited for actual hardwood.
